Smart Plug 3

Smart Plug

The screenshot shows the JULLIX app interface for a 'DEMO installatie'. At the top, there is a purple header with the JULLIX logo, a search icon, a notification bell, and a user profile icon. Below the header, the text 'DEMO installatie' is displayed with a dropdown arrow. The main content area features two device cards: 'Vijver pomp' and 'Boiler'. Each card displays a power icon, the device name, and three data points: 'Vermogen' (0.00 kW), 'Spanning' (231.2 V for the pump and 231.5 V for the boiler), and 'Stroom' (0.00 A). Below the data, there is a settings gear icon and a control toggle. The 'Vijver pomp' toggle is currently off, while the 'Boiler' toggle is on. At the bottom, a navigation bar contains four icons: 'Dashboard', 'Grafieken', 'Laadpaal', and 'Smart plug', with 'Smart plug' being the active selection.
